CELEBRATING 30 YEARS

A note from the Executive Director

As we embark on our 4th decade of high quality performing arts instruction for all children, including those with special needs, I wanted to take a moment to once again share that the Center for Theater Arts is much more than a place to take voice, dance, musical theater and theater instruction. The CTA offers a fun, creative, challenging and exciting curriculum that explores expectation, investment, personal accountability and process. This focus grounds each student with an overall experience that is truly unforgettable. I am confident that having classes at the CTA will be something your child will value the rest of their lives! —Billy Hartung
